EXPERIENCE

Freelance Full Stack Developer | Angular 18 - 20, .NET 8 | May 2026 - Present Surat, India

EMyShop is an e-commerce and inventory management platform designed to help local shops and businesses sell products and services online. The platform enables shopkeepers to manage products, inventory, and online sales through a centralized marketplace. Currently working on Phase 1, contributing to the development of core features and the platform foundation. Responsible for developing scalable, responsive, and user-friendly web application features using full-stack development practices. My responsibilities include feature development, API integration, performance optimization, debugging, and maintaining clean, reusable code to deliver a reliable and seamless user experience.

MegaMinds Tech Private Limited : Angular 14 - 16 & .NET 6 - 8 | May 2025 - April 2026 Surat, India

Pilotbird: Developed a data analytics platform for the USA, UK, and Canadian insurance markets. Built AI-driven systems to collect and process publicly available customer data from social media and online sources. Implemented automated data verification workflows with human review interfaces. Designed backend services for data processing, publishing, and structured analytics, enabling insurance companies to access verified customer insights and risk profiles.

Vision Infotech: Angular 12-14 & .NET 6,7 | Apr 2022 – Sep 2024 Navsari, India
